Students are highly encouraged to complete BIOL 117 & BIOL 120L during the summer session prior to their first fall at WVU. This will allow a smoother transition into major course work.

Students can select from Three Area of Emphasis while at WVU

- Cell & Molecular
- Ecology, Ecosystems, & Global Change
- Integrative Biology

*Students who test into MATH 121 (MATH 155) and complete it will satisfy the Biology B.S. requirements. Students can then replace the other specific MATH elective with MATH 202 (STAT 211) to complete the program's statics requirement at HACC. If students need to begin at MATH 119 (MATH 129), students will want to continue and complete MATH 121 (MATH 155) prior to enrolling at WVU. Students can complete BIOL 223 during their first semester at WVU to complete their statistics requirement.

^Students have the option to complete PHYS 101/L (HACC's PHYS 201) and PHYS 102/L, or SUST 101/L (GEOL 101) & SUST 201/L (GEOL 102) or SUST 101/L (GEOL 101) & SUST 207/L for the Biology BS program. Students will then complete their chosen sequence once at WVU.

Students transferring to West Virginia University with an Associate of Arts or Associate of Science degree will have satisfied the General Education Foundation requirements at WVU.

Students who have questions regarding this articulation agreement or the transferability of coursework may contact the WVU Office of the University Registrar. All other questions should be directed to the WVU Office of Admissions.

The above transfer articulation of credit between West Virginia University and Harrisburg Area Community College, is approved by the Dean, or the Dean's designee, and effective the date of the signature.
