Upper-Division CHEM Elective (3)	4	General Elective	3
General Elective Minor Course (4)	3	General Elective	3
General Elective	2	General Elective	2
TOTAL	15	TOTAL	15

Students must complete both CHEM 101 & CHEM 103L and CHEM 102 & CHEM 104L with a grade of C- or better to be admitted to the Chemistry program when transferring to WVU.

CHEM 191 is recommended by the Chemistry department as a helpful addition.

\*CHEM 402 is currently offered in the Spring semester only. This offering may move to both Fall and Spring semester in the future.

Students completing degrees in WVU's Eberly College of Arts and Sciences are encouraged to work with their advisors to integrate completion of an academic minor or minors into their programs of study, to the degree allowed within elective hours. WVU offers over 100 minors that complement major fields of study, build on students' unique interests, expand perspectives, and broaden skills. See

http://catalog.wvu.edu/undergraduate/minors/#minorsofferedtext for a list of available minors. Students may begin completion of a minor by utilizing elective credit to take courses at NRCTC equivalent to minor required courses at WVU.

Students transferring to West Virginia University with an Associate of Arts or Associate of Science degree will have satisfied the General Education Foundation requirements at WVU.

Students who have questions regarding this articulation agreement or the transferability of coursework may contact the WVU Office of the University Registrar. All other questions should be directed to the WVU Office of Admissions.

The above transfer articulation of credit between West Virginia University and New River Community & Technical College, is approved by the Dean, or the Dean's designee, and effective the date of the signature.
