Students must have a C- or better in BIO 155, BIO 156, and CHE 155 (WVU's BIOL 101/L & BIOL 102/L and CHEM 115/L) to be admitted directly into the Biology program upon transferring to West Virginia University. Students will need to complete BIOL 117 & BIOL 117L in their first semester at WVU. It would even be encouraged for students to take the course prior to attending their first Fall semester at WVU.

Students completing degrees from the WVU Eberly College of Arts and Sciences are required to work with their advisors to integrate completion of an academic minor or minors into their programs of study. WVU offers over 100 minors that complement major fields of study, build on students' unique interests, expand perspectives, and broaden skills. See <http://catalog.wvu.edu/undergraduate/minors/#minorsofferedtext> for a list of available minors. Westmoreland County Community College students may begin completion of certain minors at WCCC by utilizing *Elective* hours to take courses equivalent to the minor's introductory requirements at WVU.

Students transferring to West Virginia University with an Associate of Arts or Associate of Science degree will have satisfied the General Education Foundation requirements at WVU.

Students who have questions regarding this articulation agreement or the transferability of coursework may contact the WVU Office of the University Registrar. All other questions should be directed to the WVU Office of Admissions.

The above transfer articulation of credit between West Virginia University and Westmoreland County Community College, is approved by the Dean, or the Dean's designee, and effective the date of the signature.
