Students must have a cumulative GPA of 2.25 in all college coursework attempted, and a C -or better in MAT 1200, MAT 1210 or higher and EGR 1100 (WVU MAE 102) to be admitted directly to the Industrial Engineering Program at the Statler College of Engineering and Mineral Resources upon transferring to West Virginia University to ensure this pathway.

Since CMSD students transfer up to MATH 261, they do not need to take ENGR 101 specifically. Another engineering technical elective from CMSD or WVU can satisfy this credit.

MAE 243 (CSMD EGR 2200) will fulfill the MAE Elective requirement. MAE 242 (CSMD EGR 2210) and MAE 320 (CSMD EGR 2320) will fulfill the Technical Elective requirements. STAT 215 will substitute for IENG 213 based on summer availability.

Students transferring to West Virginia University with an Associate of Arts or Associate of Science degree will have satisfied the General Education Foundation requirements at WVU.

Students who have questions about admission into their intended program, GEF requirements, or any other issue relating to academics at West Virginia University should contact the Office of Undergraduate Education at WVU.

The above transfer articulation of credit between West Virginia University and College of Southern Maryland, is approved by the Dean, or the Dean's designee, and effective the date of the signature.
