Students entering WVU at the sophomore level or above, have earned a C- or better in CHEM 115, MATH 155, MATH 156, and PHYS 111, and have completed at least three credit hours in a discipline specific course, may request to take an approved elective (or approved transfer credit) as a substitute for either ENGR 101 or 102 or the combination. For this agreement, ENGR 100 (ENGR 1TC) will be utilized as a substitution for WVU's required ENGR 101.

Students must have a cumulative GPA of 2.75 in all college coursework attempted, and a C- or better in MATH 155 (MATH 185), CHEM 115/L (CHEM 101), ENGL 101 (ENGL 101), ENGR 101, and ENGR 102 to be admitted directly to the Aerospace Engineering in the Statler College of Engineering and Mineral Resources upon transferring to West Virginia University.

Students on this path will be allowed to take ENGR 102 and MAE 215 at the same time waiving the co-requisite requirement. Alternatively, students are encouraged to take ENGR 102 online any semester or summer before starting at WVU.

Students transferring to West Virginia University with an Associate of Arts or Associate of Science degree will have satisfied the General Education Foundation requirements at WVU.

Students who have questions about admission into their intended program, GEF requirements, or any other issue relating to academics at West Virginia University should contact the Office of Undergraduate Education at WVU.

The above transfer articulation of credit between West Virginia University and Frederick Community College, is approved by the Dean, or the Dean's designee, and effective the date of the signature.
