^{*} Since CMSD students transfer to WVU with MATH 261 completed, they do not need to take ENGR 101, specifically. Another upper-level engineering technical elective from CMSD or WVU can satisfy this credit.

Students must have a cumulative GPA of 2.25 in all college coursework attempted, and a C or better in MAT 1200 & MAT 1210 (WVU MATH 155 & MATH 156), CHE 1200 & CHE 1200L (WVU CHEM 115 & CHEM 115L), ENG 101 (WVU ENGL 101), EGR 1100 (WVU MAE 102) and PHY 2300 (WVU PHYS 111/L) and to be admitted directly to the Industrial Engineering Program at the Statler College of Engineering and Mineral Resources upon transferring to West Virginia University to ensure this pathway.

CSMD EGR 2210 (WVU MAE 242) will count as an MAE Technical Elective, and CSMD EGR 2320 (MAE 320) and CSMD 2200 (WVU MAE 243) will both count at Technical Electives. STAT 215 will substitute for IENG 213 based on summer availability.

Planned lab decoupling curriculum changes may result in different course numbers for certain classes (IENG 302 and IENG 303 becomes IENG 302/302L).

Students transferring to West Virginia University with an Associate of Arts or Associate of Science degree will have satisfied the General Education Foundation requirements at WVU.

Students who have questions about admission into their intended program, GEF requirements, or any other issue relating to academics at West Virginia University should contact the Office of Undergraduate Education at WVU.

The above transfer articulation of credit between West Virginia University and College of Southern Maryland, is approved by the Dean, or the Dean's designee, and effective the date of the signature.
